

The Terpefestival™ is offering growers and producers the chance to showcase their top genetics and compete against others in the industry to see whose flowers and solventless has the best terpenoid characteristics. We invite all producers to participate, using the event as a means to provide education to the growing consumer base on how to select product based on the “flavor” elements, not just THC content.

The Terpenoid Tournament is part of the Terpefestival and intended to highlight the quantitative science behind the quality of the cannabis as well as the qualitative experience cannabis terpenes invoke. By entering your crowning strain or solventless extract of cannabis, you will receive a terpenoid and cannabinoid profile from SC Labs for your entry, as well as a ticket to attend Terpefestival on July 23, 2016 at the Real Goods Solar Living Center in Hopland, CA. Entries will be ranked objectively based on the relative quantities of total terpenoids, and judges will provide subjective feedback. CASP will be accepting entries of flower and solventless extract for a terpene exhibition and competition.

To submit a sample for terpenoid analysis from SC Labs, you will need to deliver the sample to one of the drop-off locations NO LATER THAN June 25, 2016. The entry fee into the competition is \$200 per entry. A portion of this fee will be donated to the Cannabis and Social Policy Center and a portion will be donated to Project CBD.

How to Enter: Flower: Cost per entry \$200

- Submit 1 oz of your top-shelf flower for analysis and judge panel review. Please deliver your flower in quart-sized wide-mouth mason jar, or the equivalent.
- Solventless extract: Cost per entry \$200
Submit 3 grams of your top-shelf concentrate for analysis and judge panel review: Cost per entry \$200. Please deliver your concentrate in a small, wide-mouth glass jar (so we can easily divide it samples) or something equivalent. It's best to avoid plastic (such as a syringe) as all of the terpenophenolic compounds will bind strongly to plastics.

Award Categories for Flower and Solventless:

<p>Quantitative Awards (from lab analysis):</p> <ol style="list-style-type: none"> 1. Highest Total Terpenes 2. Highest Pinene content 3. Highest Myrcene content 4. Highest Terpinolene content 5. Highest Limonene content 6. Highest Beta-Caryophyllene content 	<p>Qualitative Awards (judge's perception):</p> <ol style="list-style-type: none"> 7. Best "nose" 8. Most energizing: physical/cognitive 9. Most relaxing: sedating, sleep-inducing <p>Quantitative plus Qualitative</p> <ol style="list-style-type: none"> 10. Best in show: based on qualitative and quantitative results 11. People's Choice: selected by amateur judges
